

GROW FAST – BASIC Finance

SAP Cloud ERP – Implementation Package Finance

Who is this package for?

Companies that want to launch SAP Cloud ERP with a solid finance foundation while relying on proven SAP Best Practices – with a clearly defined process scope and predictable implementation effort.

What's included?

Provisioning & Setup

- ✓ SAP S/4HANA Public Cloud system landscape: Starter, Development, and Production system
- ✓ Setup of the core cloud services: SAP Cloud Identity Services, SAP Central Business Configuration, SAP Cloud ALM, SAP Business Technology Platform (BTP)

Processes (SAP Best Practices)

- ✓ Accounting and financial closing
- ✓ Credit management
- ✓ Automated invoice processing
- ✓ Cost management and profitability analysis
- ✓ Finance Treasury incl. bank integration
- ✓ Implementation with SAP Cloud ALM
- ✓ Rollout for a single client

Integration

- ✓ Integration of the required cloud services and processes based on SAP Best Practices

What does it cost?

Implementation

From €92,000

SAP licence

From €5,175/month

All prices excl. VAT. The exact implementation effort is determined individually during a consultation and after successful completion of the Digital Discovery Assessment.

Talk to us.

We'll show you how the Finance package fits your company structure and what an implementation at PART actually means.
